

Example of a three player game of Demon Derby during play.

### Set-up

Share out the Character Cards evenly between players. These characters become your teams. Discard any surplus Character Cards so every player has the same number of characters. Shuffle the remaining playing cards, (Action Cards,) and place them face down on the table.

The Game takes the form of Rounds. Rounds are played and Character Cards are eliminated until only one person holds Character Cards.

### Starting a Round

Each player rolls the dice. The player with the highest score starts first and the turns proceed clockwise.

Each player places one Character Card down. These are the characters that will be competing in this round of the game.

Take it in turns to place an Action Card next to your character. Follow the instructions on the card. If the card is a "Power Up" or a "Power Up Plus" then it remains in the trail, else the card is discarded into the Discard Pile.
